

# Front end development: Loops

## JavaScript – steps

---

The following exercise contains the following subjects:

- ◆ for loop

### Instructions

You are given two arrays:

Write a function that has one argument, a positive integer. Lets call it N.

The function should console log a step shape.

With N levels using the # character. Make sure the step has spaces on the right hand side!

Examples:

steps(n)

'# '

'##'

steps(3)

'# '

'## '

'###'

steps(4)

'# '

'## '

'### '

**'####'**

Submit the file to Hive.
